

## Course Offerings

### We Train to Your Needs

While we are qualified and certified to train all of the classes outlined below, the concept that sets Platinum Engineering & Safety, Inc. apart from our competitors is our desire to customize training to your operational needs. Some of our clients utilize our services for their annual re-certification, while others choose us on a more frequent basis for things such as informative monthly meetings, site inspections, or safety consultation. We quite literally will train anytime, anywhere, on any topic or combination of topics that you choose.

Whatever your needs are, Platinum Engineering & Safety, Inc. will work to provide you a plan to suit your business and ensure your satisfaction.
